

Clarifications to Terms of Reference

Re: procedure to award a public contract for services for the price lower than the equivalent of EUR 750,000 concerning The Development and Delivery of a Training Programme for POLONEZ Programme Fellows, Reference No.: DSO.271.4.4.2017

Pursuant to Chapter XI of Terms of Reference (hereinafter referred to as ToR), the Contracting Authority hereby publishes the questions concerning the Terms of Reference together with the explanations provided:

Question no. 1

In paragraph 3 of section II, "Forms of Support" in the document "Precise description of the subject of the contract", you detail the services you require for the networking meetings. We understand that you would like us to supply experts to conduct those meetings. Please could you tell us how many experts you would like us to supply per networking meeting? Or do you not have a preference?

Answer no. 1

The Contracting Authority informs that, pursuant to the provisions of item II.3 of Attachment No. 1 to the Terms of Reference the number of experts invited to one specific networking meeting depends on the Contractor and the meeting's concept. The Contracting Authority does not have any special requirements referring to that, if only at least one expert per each meeting is provided.

The Contracting Authority informs that the Contractors are obliged to take the clarifications provided into account in the bid preparation. The clarifications provided hereby do not result in any amendments to the content of ToR.
