I. INTRODUCTION

The **OPUS 20** call is addressed at researchers at all stages of their academic careers, who are planning research projects, including in cooperation with foreign research teams pursuant to the Lead Agency Procedure, in which the NCN will act as the lead agency.\(^1\)

It means that OPUS 20 will be open to funding proposals for research projects:

- without the participation of foreign partners;
  
  *EXAMPLE:* A research project carried out by a research team affiliated with a Polish university;

- implemented by Polish research teams with the use of large international research equipment;
  
  *EXAMPLE:* A research project carried out by a research team affiliated with a Polish university, using data from the Gaia space mission launched by the European Space Agency in 2013;

- with the participation of foreign partners that are not applying for funding for that purpose within the framework of programmes launched by partner institutions in cooperation with the NCN pursuant to the Lead Agency Procedure (however, the foreign teams may apply for funding under other research-funding programmes that are not co-organised by the NCN pursuant to the Lead Agency Procedure);
  
  *EXAMPLE:* A research project carried out by a team affiliated with a Polish university (applying for NCN funding for the Polish part of the research project) with the participation of Spanish partners, who independently seek funding for the Spanish part of the research project from other sources;

- within the framework of LAP cooperation, i.e. with foreign research teams from the Czech Republic, Austria, Slovenia, Germany or Switzerland, that apply for funding to their relevant research-funding agencies (i.e. to FWF, GACR, ARRS, DFG or SNSF) under programmes launched in partnership with the NCN pursuant to the Lead Agency Procedure;
  
  *EXAMPLE:* A research project carried out by a research team affiliated with a Polish university (applying for NCN funding for the Polish part of the research project) in cooperation with a German research team applying to the DFG within the framework of a LAP partnership between the NCN and the DFG;

---

\(^1\) **PLEASE NOTE:** At the NCN, the submission of proposals for research projects carried out within the LAP cooperation will only be possible in the September edition of OPUS.
• within the framework of LAP, with the participation of foreign partners who are not applying for funding under programmes announced by partner institutions, organised in cooperation with the NCN pursuant to the Lead Agency Procedure and/or implemented by Polish research teams with the use of large international research equipment;

EXAMPLE: A research project carried out by a research team affiliated with a Polish university (applying for NCN funding for the Polish part of the project) in partnership with a German research team applying for DFG funding, within the framework of the LAP cooperation between the NCN and the DFG, as well as with Spanish partners independently applying for funding for the Spanish part of the project from other sources;

• with additional participation of foreign partners that are not applying for funding for that purpose under schemes launched by partner institutions in cooperation with the NCN pursuant to the lead agency procedure with the use of large research equipment;

EXAMPLE: A research project carried out by a team affiliated with a Polish university (applying for NCN funding of the Polish part of the research project), using data from the Gaia space mission launched by the European Space Agency in 2013 with the participation of Spanish partners that independently seek funding for the Spanish part of the research project from other sources.

PLEASE NOTE: These guidelines concern proposals for funding of research projects within the framework of LAP cooperation (OPUS LAP proposals) due to their specific nature involving participation of foreign partiers funded by their relevant agencies (FWF, GAČR, ARRS, DFG or SNSF) pursuant to the cooperation agreement they sign with the NCN.

International cooperation is not obligatory under the OPUS 20 call and proposals submitted together with foreign partners will not be given preferential treatment over those that do not involve such partnerships.

Lead Agency Procedure

The Lead Agency Procedure (LAP) is a new standard used to evaluate proposals applied by the European research-funding agencies. It is to facilitate international research teams to apply for funds for joint research projects and to simplify the evaluation of proposals by research-funding agencies. The key principles of the procedure include:
• the use of national calls carried out by partner institutions to perform merit-based evaluation not only of domestic proposals, but also bilateral and multilateral ones, which compete with NCN proposals on an equal footing;
• trust in the quality of peer-review among agencies undertaking such cooperation. Thus, projects involving two or more research groups from different countries to perform joint research will only be evaluated by a lead agency relevant for one of the teams participating in a project in the call that constitutes a permanent element of such agency's offer. Other agencies co-organising the call will accept the results of merit-based evaluation performed by the lead agency and award funding to research projects recommended for funding in the course of such evaluation.

LAP cooperation in OPUS 20

In the case of OPUS 20, the LAP cooperation relies on cooperation agreements between the NCN and the following partner institutions:

• FWF - Austrian Science Fund - Fonds zur Förderung der wissenschaftlichen Forschung, FWF;
• GAČR - Czech Science Foundation - Grantová agentura České Republiky;
• ARRS - Slovenian Research Agency - Javna agencija za raziskovalno dejavnost Republike Slovenije;
• DFG - German Research Foundation - Deutsche Forschungsgemeinschaft;
• SNSF - Swiss National Science Foundation.

Pursuant to the cooperation agreements, the NCN as the lead agency under OPUS 20 will perform the merit-based evaluation of OPUS LAP proposals for research projects carried out by research teams from Poland, as well as the Czech Republic, Austria, Slovenia, Germany or Switzerland.

If a research project is recommended for funding following the merit-based evaluation performed by the NCN, the NCN will provide funds for the Polish research team, while the other partner institutions (FWF, GAČR, ARRS, DFG or SNSF) will fund the foreign research teams.

OPUS 20 is also open to funding proposals submitted within the framework of the LAP cooperation (hereinafter referred to as OPUS LAP proposals):

• bilateral or trilateral cooperation between a Polish research team and teams from the Czech Republic, Austria or Slovenia (under the Central European Science
Partnership – CEUS2), in all research disciplines, whereas the Polish research team must apply to the NCN:

- **for at least 40% of the total project budget**, as outlined in the budget table (applies to bilateral projects)

or

- **for at least 25% of the total project budget**, as outlined in the budget table (applies to trilateral projects);

PLEASE NOTE: If an OPUS LAP proposal is submitted to the NCN as the lead agency and the above conditions are not met, the proposal will be rejected by the NCN and the partner institutions relevant for the foreign teams involved in the project on the grounds that it does not meet the eligibility criteria.

- **bilateral cooperation** between research teams from **Poland and Germany** only in the field of **Life Sciences and Physical Sciences and Engineering**3;

- **bilateral cooperation** between research teams from **Poland and Switzerland** – in all research disciplines.

This document lays down the guidelines for the Polish research teams submitting OPUS LAP proposals under OPUS 20. Foreign research teams must comply with the requirements of their respective partner institutions, i.e. FWF, GAČR, ARRS, DFG or SNSF.

The detailed rules for submitting OPUS LAP proposals under OPUS 20 are laid down in section II: HOW TO SUBMIT PROPOSALS UNDER THE OPUS 20 CALL?

OPUS 20 will also be open to funding proposals (including OPUS LAP proposals) for research projects with the participation of foreign partners that are not applying for funding to FWF, GAČR, ARRS, DFG or SNSF under programmes launched in partnership with the NCN pursuant to the Lead Agency Procedure. Foreign research teams must acquire funding of such proposals from other sources.

Below is a diagram showing the individual stages of the OPUS 20 procedure with regard to OPUS LAP proposals, i.e. proposal submission, eligibility check and merit-based evaluation, approval of ranking lists, issue of decisions and execution of agreements. The diagram also shows the communication process among agencies involved in individual stages of the call.

---

2 PLEASE NOTE: At the NCN, the call for proposals for research projects carried out within the bilateral or trilateral cooperation by research teams from Poland, Austria, the Czech Republic and Slovenia, with the FWF, GAČR or ARRS acting as the lead agency is held under CEUS-UNISONO.

3 PLEASE NOTE: The call for proposals for Polish-German research teams in the area of Arts, Humanities and Social Sciences is held under Beethoven CLASSIC 4.
Diagram. Individual stages of the procedure and communication process among agencies involved in the OPUS 20 call with regard to OPUS LAP proposals

For bilateral cooperation: research team from the Czech Republic/ Germany/ Switzerland/ Austria/ Slovenia

Domestic proposal submitted to GAČR/ DFG/ SNSF/ FWF/ ARRS, in compliance with the requirements of a given agency

Research team from Poland

PLEASE NOTE: In the case of projects carried out in cooperation between a Polish research team and research teams from the Czech Republic, Austria or Slovenia, the Polish research team must apply to the NCN for at least 40% (applies to bilateral cooperation) or at least 25% (applies to trilateral cooperation) of the total project funding, as outlined in the budget table

OPUS LAP proposal submitted to the NCN as the lead agency in compliance with the requirements of OPUS 20

Eligibility check performed by all agencies relevant for the research teams involved in the project

NCN as the lead agency performs merit-based evaluation under OPUS 20

Approval of the results of merit-based evaluation by GAČR/ DFG/ SNSF/FWF/ ARRS

Project funding agreement between foreign applicant and GAČR/ DFG/ SNSF/FWF/ ARRS

Results of merit-based evaluation performed by NCN and list of projects recommended for funding

Project funding agreement between Polish applicant, principal investigator and NCN

Approval of the results of merit-based evaluation by GAČR/ FWF/ ARRS

Project funding agreement between foreign applicant and GAČR/ FWF/ ARRS

For trilateral cooperation: research team from the Czech Republic/ Austria/ Slovenia

Domestic proposal submitted to GAČR/ FWF/ ARRS, respectively

Project carried out in trilateral cooperation between a Polish research team and research teams from the Czech Republic, Austria or Slovenia

Project carried out in bilateral cooperation between a Polish research team and research teams from the Czech Republic/ Germany/ Switzerland/ Austria/ Slovenia

Domestic proposal submitted to GAČR/ DFG/ SNSF/ FWF/ ARRS, in compliance with the requirements of a given agency
II. HOW TO SUBMIT AN OPUS LAP PROPOSAL IN THE OPUS 20 CALL

1. Preparation of OPUS LAP proposals

OPUS 20 is open to proposals indicated in Section I, including OPUS LAP proposals:

- drafted by Polish research teams in cooperation with foreign team(s) pursuant to the OPUS 20 call announcement;
- involving basic research that has not been funded by the NCN or from other sources;
- under which research is based on a balanced and complementary contribution by all research teams. This is to say that the contribution of each team involved in the project must be significant and necessary and their respective tasks should complement one another to create a coherent joint research project. An OPUS LAP proposal that, according to the Expert Team, does not meet that requirement, will not be eligible for funding.

Each research team involved in the LAP cooperation must have a principal investigator, whereas the principal investigator for the Polish research team must manage the Polish part of the research project.

Detailed information on how to fill in an OPUS LAP proposal in the ZSUN/OSF submission system can be found below, under FILLING OUT NCN PROPOSALS IN ZSUN/OSF.

According to the OPUS 20 call announcement, the Polish research team must submit its OPUS LAP proposal drafted in cooperation with the foreign research team(s) to the NCN via the ZSUN/OSF (Zintegrowany System Usług dla Nauki /Obsługa Strumieni Finansowania) submission system available at: https://osf opi.org.pl, by 15 December 2020, 4 p.m.

Each foreign research team involved in the LAP cooperation must submit a funding proposal, together with a set of required documents, to its respective research funding agency by the date and according to the rules specified thereby; proposals are submitted as follows:

- Austrian research teams submit their proposals to the FWF;
- Czech research teams submit their proposals to the GAČR;
- Slovenian research teams submit their proposals to the ARRS;
- German research teams submit their proposals to the DFG; and
- Swiss research teams submit their proposals to the SNSF.
If the partner institution requires applicants to submit a copy of the OPUS LAP proposals to its respective submission system, a complete English language version of the OPUS LAP proposal in PDF format must be generated following submission of the OPUS LAP proposal to the ZSUN/OSF system and sent to the foreign research team.

**PLEASE NOTE:** OPUS LAP proposals submitted to the NCN must be the same as the one submitted to the partner institution.

---

\(^4\) Any change in the duration of a project performed by the Polish and foreign research teams is subject to the applicable rules of the NCN and relevant partner agencies.
2. Budget for tasks to be performed by the Polish research teams

The budget of tasks to be performed by the Polish research teams must comply with the regulations on the costs planned in the project, including costs relating to the budget for salaries and scholarships laid down in “Types of costs in research projects funded by the National Science Centre” (Annex to the Regulations). The rules for awarding NCN scholarships are laid down in the Regulations on awarding scholarships.

Creating a project budget is one of the most important aspects in the project planning which aims at identifying the required resources and estimating the costs. The project budget must be justified as regards the subject and scope of research, based on calculations and must specify the expenditures to be covered by the NCN (the so-called eligible costs). The proposal may be rejected if unreasonable budget is planned.

**PLEASE NOTE**: The results of merit-based evaluation performed by the NCN as the lead agency must be approved by relevant partner agencies (i.e. by FWF, GAČR, ARRS, DFG or SNSF), therefore the funding decision concerning the OPUS LAP proposals will be taken within 11 months of the proposal submission date. Hence, the Polish research teams may plan their research projects in the ZSUN/OSF submission system starting from 2022. If the funding decision by the NCN Director is taken in 2021, the applicants may incur pre-financing costs from their own resources before the funding agreement is executed by the NCN, the applicant and the principal investigator. They will be eligible costs from the date the funding decision by the NCN Director becomes final until the date the research project is completed.

Costs in the project include direct costs and indirect costs.

**Direct costs** include:

1. **salary:**
   - full time remuneration: funds for full-time employment of the principal investigator or post-doc(s),
   - additional remuneration for members of the research team,
   - salaries and scholarships for students and PhD students,
2. purchase or manufacturing of research equipment, devices and software,
3. purchase of materials and small instruments,
4. outsourced services,
5. business trips,
6. visits and consultations (PLEASE NOTE: The costs of consultations and visits of collaborators from research institutions that receive parallel funding from FWF, GAČR, ARRS, DFG or SNSF are not eligible),
7. compensation for collective investigators and
8. other costs crucial to the research project which comply with the “Types of costs in research projects funded by the National Science Centre” (Annex to the Regulations), including:
   - costs of purchasing data/databases or access thereto,
   - specialist publications/teaching aids, and
   - costs of publishing the results of research. The cost of publication of monographs may be incurred once positively reviewed by the NCN. The costs of publication of monographs (as defined in §10 of the Regulation on evaluation of the quality of research activity issued by the Minister of Science and Higher Education on 22 February 2019 (Journal of Laws of 2019, item 392)) resulting from the research projects are not eligible until positively reviewed by the NCN.

Indirect costs may not exceed 20% of direct costs. Pursuant to the Order of the NCN Director, the Open Access Policy at the NCN has been adopted, concerning open access to publications resulting from the research projects, scholarships and fellowships as well as research activities funded or co-funded by the National Science Centre. In addition, indirect costs of up to 2% of direct costs may be spent on Open Access to publications and research data.

3. Budget for tasks to be performed by foreign research teams
An OPUS LAP proposal submitted to the ZSUN/OSF system must contain a budget table listing foreign project costs of all foreign research teams involved in the LAP cooperation, drafted in accordance with the respective rules of the FWF, GAČR, ARRS, DFG or SNSF. Furthermore, in the budget table, enter the costs the Polish research team requests from the NCN (PLEASE NOTE: the costs must be identical to the costs in the NCN proposal in the ZSUN/OSF system).

PLEASE NOTE: Choose and complete a budget table sheet in Excel appropriate for your research team:
in the case of research projects carried out by the Polish research team in bilateral or trilateral cooperation with the research teams from the Czech Republic, Austria or Slovenia under the CEUS programme, complete two sheets:

a) “CEUS - SI, AT, CZ” sheet, listing the costs requested by the foreign research team from the FWF, GAČR or ARRS; the costs must be indicated in EUR (in the case of Austrian research teams applying to the FWF and Slovenian research teams applying to ARRS) and CZK (in the case of Czech research teams applying to the GAČR) and will be automatically converted into PLN according to the exchange rate published by the National Bank of Poland on 14 September 2020, i.e. 1 EUR = 4.4490 PLN and 1 CZK = 0.1673 PLN; the costs the Polish research team requests from the NCN, must be identical to the PLN costs in the NCN proposal in the ZSUN/OSF system, (the costs will be automatically converted into EUR according to the following exchange rate published by the National Bank of Poland on 14 September 2020, i.e. 1 EUR = 4.4490 PLN)

EXAMPLE:
b) “CEUS-JUSTIFICATION” sheet, providing justifications for the amounts listed in the first sheet.

PLEASE NOTE: The costs entered into the first sheet will be automatically imported to the “CEUS-JUSTIFICATION” sheet. No justification of costs is required from Slovenian research teams applying to the ARRS.

EXAMPLE:

- in the case of research projects carried out by Polish research teams in bilateral cooperation with German research teams, complete a “DE” sheet listing the costs requested by the German research team from the DFG and providing a detailed justification of costs; the costs must be indicated in EUR and will be automatically...
converted into PLN according to the exchange rate published by the National Bank of Poland on 14 September 2020, i.e. 1 EUR = 4.4490 PLN:

**EXAMPLE:**

- in the case of research projects carried out by Polish research teams in **bilateral** cooperation with Swiss research teams, complete a **“CH” sheet** listing the costs requested by the Swiss research team from the SNSF and providing a detailed **justification** of the costs; the amounts must be provided in CHF and will be automatically converted into PLN according to the exchange rate published by the National Bank of Poland on 14 September 2020, i.e. 1 CHF/EUR = 4.4490 PLN according to the following exchange rate: 1 CHF = 4.1334 PLN:
EXAMPLE:

<table>
<thead>
<tr>
<th>SNF cost category</th>
<th>SNF requested sum (in CHF)</th>
<th>SNF requested sum (in CHF): 1 CHF = 4.1334 PLN</th>
<th>Details of the costs planned for the Swiss research team (in CHF and in PLN)</th>
<th>NCN cost category</th>
<th>NCN - requested sum (in PLN)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Personnel costs</td>
<td>fr. 100.00</td>
<td>412 zł</td>
<td>Details of the costs planned for the Swiss research team</td>
<td>Personnel costs and scholarships</td>
<td>200 zł</td>
</tr>
<tr>
<td>Equipment costs</td>
<td>fr. 100.00</td>
<td>413 zł</td>
<td>Materials and small equipment</td>
<td>Overtime and travel costs</td>
<td>100 zł</td>
</tr>
<tr>
<td>Research funds</td>
<td>fr. 100.00</td>
<td>413 zł</td>
<td>Reimbursement of travel, meals and other expenses</td>
<td>Shared costs</td>
<td>1 zł</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>SUM (in CHF) and</td>
<td>fr. 300.00</td>
<td>1,249 zł</td>
<td>SUM (in PLN)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>share in %</td>
<td></td>
<td>52.3%</td>
<td>Share in %</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**PLEASE NOTE**: The budget table must include the costs requested by foreign research teams from the FWF, GAČR, ARRS, DFG or SNSF, as well as justifications for all amounts entered. Foreign project budgets in the budget table will be subject to merit-based evaluation performed by the NCN as the lead agency to verify whether the project costs are justified as regards the subject and scope of research.

**PLEASE NOTE**: If the costs in the budget table are not justified, the proposal may be rejected. The budget table does not replace the standard forms required by FWF, GAČR, ARRS, DFG or SNSF as regards foreign project budgets. Each foreign research team involved in the LAP cooperation must submit a funding proposal, together with a set of required documents, to its respective research funding agency by the date and according to the rules specified thereby.

**PLEASE NOTE**: In the case of OPUS LAP proposals for research projects carried out by Polish research teams in bilateral or trilateral cooperation with the Austrian, Czech or Slovenian research teams, a proposal submitted to the NCN as the lead agency must concern a research team involving a Polish research team applying to the NCN:

- for at least 40% of the total project budget, as outlined in the budget table (applies to bilateral projects)

or
for at least 25% of the total project budget, as outlined in the budget table (applies to trilateral projects).

If a proposal is submitted to the NCN as the lead agency and the above condition is not met, the proposal will be rejected by the NCN and the partner institutions relevant for the foreign teams involved in the project on the grounds that it does not meet the eligibility criteria.

PLEASE NOTE: Once the budget table in Excel is completed, save the file in PDF format and make sure that entire cell content in Excel format is visible (in particular the justification of the costs). Then, attach the budget table in PDF format to the appropriate section of the OPUS LAP proposal in the ZSUN/OSF submission system.

The budget table does not have to be signed.

4. Documents provided to the NCN by the Polish research team
OPUS LAP proposals are completed and submitted to the ZSUN/OSF system according to the call documents.

A. OPUS LAP proposals in the ZSUN/OSF system must be appended with the following documents concerning the Polish applicant in PDF format, signed by hand or with a qualified electronic signature in PAdES format:

- confirmation of submitting the proposal signed by the authorised representative(s) of the entity acting as the Polish applicant (in the case of a group of entities: Polish entity acting as its leader), generated automatically by the ZSUN/OSF system when completing the work on the proposal under the Electronic submission tab;
- confirmation of submitting the proposal signed by the Polish principal investigator, generated automatically by the ZSUN/OSF system when completing the work on the proposal under the Electronic submission tab;
- in the case of Polish entities that do not receive any institutional core funding for research activities (in the case of a group of entities: required for each organisational unit in the group of entities that does not receive any institutional core funding for research activities):
  - information on research carried out over the last 2 years, together with a list of publications and information on research equipment and other instruments/facilities crucial to research (in English);

5 In this case, a scan of the document signed by hand must be attached to the proposal in the ZSUN/OSF system.
in the case of a group of Polish entities (specified in Article 27 (1) (2) of the NCN Act):

- research project cooperation agreement (in Polish).

When applying for state aid, the Polish applicant must complete additional fields of the proposal and submit additional annexes, in accordance with the guidelines available on the NCN website in the State aid section.

B. OPUS LAP proposals in the ZSUN/OSF system must be appended with the following documents on the foreign partners in PDF format:

- budget table listing foreign project costs (see the section above). The budget table does not have to be signed.

**PLEASE NOTE:** The NCN does not require any documents (agreements) confirming the LAP cooperation between Polish and foreign research teams, nor does it require OPUS LAP proposals or documents attached thereto to be signed by members of the foreign research teams.

5. Polish research team’s duty to submit a complete proposal to NCN

Polish research teams must ensure that their OPUS LAP proposals submitted to the NCN are complete. A proposal that has been submitted to the NCN via the ZSUN/OSF system cannot be amended and no file submitted to the ZSUN/OSF system can be replaced if it forms a part of the OPUS LAP proposal.

Therefore, we suggest that principal investigators carefully verify whether all sections of OPUS LAP proposals have been correctly completed.

**PLEASE NOTE:** FWF, GAČR, ARRS, DFG and SNSF may request that foreign research teams complete their proposals submitted to FWF, GAČR, ARRS, DFG or SNSF according to their respective rules. Such amendments do not have to be reported to the NCN.

---

6 In the case of research projects to be carried out by at least two Polish entities, they must establish a group of entities defined in Article 27 (1) (2) of the NCN Act and only as such can they apply for NCN funding. Each entity comprised by the group of entities has its own budget, however the budget of salaries and scholarships defined in the Regulations on awarding funding for research tasks funded by the National Science Centre as regards research projects (expected publication date of the Regulations: 15 September 2020) is the same for all entities comprised by the group of entities. If pursuant to Article 27 (1) (2) of the NCN Act, the entities cannot establish a group of entities, they cannot apply for NCN funding of a joint research project.
6. Electronic submission of OPUS LAP proposals

Once all the tabs have been completed and the OPUS LAP proposal form in the ZSUN/OSF system has been verified for completeness, you must block any further editing by clicking the Zablokuj do NCN [Block to NCN] button. Then, download the confirmation of proposal submission to be signed by the authorised representative(s) of the Polish host institution and Polish principal investigator, sign it and annex it to the proposal. **After the proposal is blocked and before it is submitted to the ZSUN/OSF system, only short and full project descriptions can be edited.**

OPUS LAP proposals submitted to OPUS 20 must be delivered to the NCN electronically via the ZSUN/OSF system available at www.osf opi.org.pl by **15 December 2020, 4 p.m.** Only electronic proposals are required by the NCN.

Please note that the FWF, GAČR, ARRS, DFG and SNSF apply their own rules according to which proposals must be submitted by foreign research teams.

If a partner institution requires that copies of OPUS LAP proposals are submitted to their respective proposal submission systems, **once the OPUS LAP proposal has been submitted to the ZSUN/OSF system,** generate a complete OPUS LAP proposal in English in PDF format and deliver it to the foreign research team.

**PLEASE NOTE:** An OPUS LAP proposal submitted to the NCN must be identical to the one submitted to the partner institution.

### III. Evaluation of OPUS LAP proposals

#### 1. Eligibility check

OPUS LAP proposals are subject to eligibility check performed by the scientific coordinators of the NCN, while proposals submitted by the foreign research teams are subject to eligibility check which is also performed by the FWF, GAČR, ARRS, DFG or SNSF, according to their respective rules. Under OPUS 20, only OPUS LAP proposals approved as eligible by the NCN with regard to which FWF, GAČR, ARRS, DFG or SNSF approved proposals submitted by the foreign research teams as eligible, are subject to merit-based evaluation.

The eligibility check is the first stage of proposal review. At the NCN, the eligibility check is performed by scientific coordinators pursuant to the eligibility criteria applicable to OPUS 20.
The applicants’ most frequent errors resulting in the proposal being rejected at the stage of eligibility check performed by NCN include:

- failure to provide a justification of the costs planned for the foreign research team(s) in the budget table; the merit-based evaluation is performed by the NCN as the lead agency on the basis of the OPUS LAP proposal and covers (inter alia) evaluation of justification of the costs planned for the research project as regards the subject and scope of research, hence justification of the costs planned for the foreign research team(s) in the budget table must be comprehensive and detailed;
- in the case of proposals submitted under bilateral or trilateral cooperation between a Polish research team and teams from the Czech Republic, Austria or Slovenia - incompliance with the budget principle as the condition for the NCN to be selected as the lead agency (see above);
- naming, in the OPUS LAP proposal, persons who are to be selected in an open call procedure, including persons to be employed as post-docs and remunerated from the NCN budget, and under NCN scholarships for students and PhD students awarded pursuant to the Regulations on awarding NCN scholarships in NCN-funded research projects;
- incompleteness of the proposal;
- submission of the proposal to only one agency involved.

2. Merit-based evaluation

Under OPUS 20, the NCN acts as the lead agency in charge of merit-based evaluation of OPUS LAP proposals which are evaluated together with other proposals submitted to the call.

Under OPUS 20, only OPUS LAP proposals approved as eligible by the NCN and with regard to which FWF, GAČR, ARRS, DFG or SNSF approved proposals submitted by the foreign research teams as eligible, are subject to merit-based evaluation.

The merit-based evaluation of OPUS LAP proposals in OPUS 20 is performed pursuant to the Regulations.

The Expert Team recommends only those OPUS LAP proposals for funding that are among 20% of proposals with the highest rank among all those submitted to the OPUS call under particular NCN review panels.

Following the merit-based evaluation, the NCN provides the relevant partner institutions (i.e. FWF, GAČR, ARRS, DFG or SNSF) with information on the results thereof together with a list of research projects recommended for funding for their approval.
The NCN Director awards funds for research projects to be performed by the Polish research teams, provided that the partner institutions award funds to the foreign research teams. The results of merit-based evaluation performed by the NCN as the lead agency must be approved by relevant partner institutions (i.e. by FWF, GAČR, ARRS, DFG or SNSF), therefore the funding decision concerning the OPUS LAP proposals will be taken within 11 months of the proposal submission date. Hence, the Polish research teams may plan their research projects in the ZSUN/OSF submission system starting from 2022. If the funding decision by the NCN Director is taken in 2021, the applicants may incur pre-financing costs from their own resources before the funding agreement is executed by the NCN, the applicant and the principal investigator. They will be eligible costs from the date the funding decision by the NCN Director becomes final until the date the research project is completed. The detailed rules according to which funding is awarded by the National Science Centre under OPUS 20 are laid down in the Regulations.

Research projects must be performed by the Polish and foreign research teams according to the rules of the NCN and respective partner institutions.
### IV. FILLING OUT OPUS LAP PROPOSALS IN THE ZSUN/OSF SYSTEM

<table>
<thead>
<tr>

<th>Subsection</th>
<th>Description</th>
</tr>
</thead>
</table>
| List of research-funding     |            | Please indicate a research-funding agency relevant for the foreign research team, to which a funding proposal will be submitted within LAP cooperation between NCN and this agency, i.e. for German research teams – DFG, for Swiss research teams – SNSF, for Austrian research teams – FWF, for Czech research teams – GAČR, for Slovenian research teams – ARRS. Choose from the list:  
1. FWF - Austrian Science Fund;  
2. GAČR - Czech Science Foundation;  
3. ARRS - Slovenian Research Agency;  
4. DFG - German Research Foundation;  
5. SNSF - Swiss National Science Foundation. |
| Duration [in months]         |            | Projects can be carried out over the period of:  
- either 24 or 36 months, in the case of LAP cooperation with research teams from the Czech Republic or Germany;  
- 24, 36 or 48 months, in the case of LAP cooperation with research teams from, Austria, Slovenia or Switzerland.  
The implementation period must be the same for all research teams involved in the project. Any change in the duration of a project performed by the Polish and foreign research teams is subject to the applicable rules of the NCN and competent partner institutions. |

**PARTICIPATING ENTITIES**

Research project cooperation agreement concluded by a group of Polish entities

If the applicant is a group of Polish entities, a cooperation agreement by a group of Polish entities must be attached (in Polish). The agreement must concern the project and identify the leader. File format: PDF; the document must bear a qualified electronic signature in PAdES format or scan of the document by hand.

A template of the agreement is available in the ZSUN/OSF system and on the NCN website. The template contains the essential provisions and may be supplemented by other terms of cooperation.

**INFORMATION ON PARTICIPATING ENTITY/ENTITIES**

Is the entity under receivership, in liquidation or subject to bankruptcy proceedings? (YES/NO)

Polish entities under forced administration, in liquidation or subject to bankruptcy proceedings cannot act as applicants.

Does the entity receive any institutional core funding for research activities, the proposal submitted to the ZSUN/OSF system must include the following information (in English):
<table>
<thead>
<tr>
<th>Section in ZSUN/OSF</th>
<th>Subsection</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Funding for research activities?</td>
<td>1) information on research carried out over the last 2 years preceding submission of the proposal, together with a list of publications affiliated with the applicant/participating entity, 2) information on research equipment and other instruments/facilities crucial to research. File format: PDF; the document must bear an electronic signature in PAdES format or scan of the document signed by hand. In the case of a group of Polish entities, the above information is required for each organisational unit in the group of entities that does not receive any institutional core funding for research activities.</td>
<td></td>
</tr>
<tr>
<td>FOREIGN ENTITY/ENTITIES</td>
<td>In this section, enter information on the foreign research institutions that will receive parallel funding from the DFG, SNSF, FWF, GACR or ARRS within LAP cooperation, if their projects are recommended for funding. Other entities cooperating on the project must be entered in the INTERNATIONAL COOPERATION section. In the case of LAP cooperation with German partners, please indicate only the German foreign research institution that receive funding from the DFG if the project is recommended for funding. Other German research institutions with which cooperation is planned in the project should be indicated in the section INTERNATIONAL COOPERATION.</td>
<td></td>
</tr>
<tr>
<td>STATE AID</td>
<td>Will project funding constitute state aid?</td>
<td><strong>When applying for state aid</strong>, the Polish applicant must fill in additional fields of the proposal and submit additional annexes, in accordance with the guidelines available on the NCN website in the State aid section. In the case of entities for which funding constitutes state aid, an OPUS LAP proposal must include the detailed costs and other documents and declarations related to applying for state aid via the NCN, as required by the proposal (in Polish). <strong>PLEASE NOTE:</strong> All annexes must be signed with a qualified electronic signature in PAdES format by the authorised representative of the enterprise. The principal investigator for the project cannot be the authorised representative of the applicant.</td>

<tr>
<td>SHORT DESCRIPTION</td>
<td></td>
<td>This section must be completed in English and must include all research tasks to be performed by the Polish research team jointly with the foreign research team(s) involved in LAP cooperation. A short project description (up to 5 pages) in English must include the following information:</td>
</tr>
</tbody>
</table>
1) scientific goal of the project (description of the problem to be solved, research questions and hypotheses);
2) significance of the project (state of the art, justification for tackling a specific scientific problem, justification for the pioneering nature of the project, the impact of the project results for the development of a given discipline and academic disciplines);
3) concept and work plan (general work plan, specific research goals, results of preliminary research, risk analysis);
4) research methodology (underlying scientific methodology, methods, techniques and research tools, methods of results analysis, equipment and devices to be used in research);
5) project literature (a reference list for publications included in the project description, with full bibliographic data).

The above-mentioned sections, including references to literature, are required and if any are missing, the proposal may be rejected as ineligible.

A project description must be attached in PDF format (up to 10 MB).

Recommended formatting: top-bottom margins: at least 1.5 cm, left-right margins: at least 2 cm; font: Times New Roman or equivalent; font size: 11; interline: single.

PLEASE NOTE:
Experts evaluating the proposal at the first stage of merit-based evaluation have no access to the full project description, therefore this short project description must include information necessary for the evaluation.

This section must be completed in English and must include all research tasks to be performed by the Polish research team jointly with the foreign research team(s) involved in LAP cooperation.

A full project description (up to 15 pages) must include the following information:
1) scientific goal of the project (description of the problem to be solved, research questions and hypotheses);
2) significance of the project (state of the art, justification for tackling a specific scientific problem, justification for the pioneering nature of the project, the impact of the project results for the development of a given discipline and academic disciplines);

**ABSTRACT FOR THE GENERAL PUBLIC**

Project’s abstract for the general public must be attached in Polish and English and must include all research tasks to be performed by the Polish research team jointly with the foreign research team(s). The abstract for the general public in each language version must not be longer than one standard page (page format: A4, font size: at least 11, font: Times New Roman or equivalent, interline: single, left-right margins: 2cm, top-bottom margins: 1.5cm). The abstract for the general public must be addressed to a wide audience, including people who are neither experts in a given field nor researchers.

**INTERNATIONAL COOPERATION**

Nature of cooperation

Option 3 in the list (LAP cooperation) must be indicated. Other option (1 and/or 2) may be indicated.

At least one of the following countries must be listed: the Czech Republic, Austria, Slovenia, Germany, Switzerland. Information on international cooperation is added for reporting purposes; a brief description of cooperation is sufficient.

**PLEASE NOTE:** The NCN does not require any documents (agreements) confirming the LAP cooperation between Polish and foreign research teams, nor does it require OPUS LAP proposals or documents attached thereto to be signed by members of the foreign research teams.

Additionally, more than one cooperating country may be added. In the case of research projects to be performed with the use of large international research equipment or with the participation of partners from foreign partner institution that do not apply for funding under schemes launched by the partner institutions organised in cooperation with the NCN pursuant to the lead agency procedure, provide information on international cooperation, together with the description of advantages of international cooperation (in English).

International cooperation must be merit-based. The following are not deemed international cooperation:

a) participation in international conferences,
### Entities

V. Proposals submitted by foreign research teams to their partner institutions

Each foreign research team involved in the LAP cooperation must submit a funding proposal, together with a set of required documents, to its respective research funding agency by the date and according to the rules specified thereby; proposals are submitted as follows:

- Austrian research teams submit their proposals to the FWF;
- Czech research teams submit their proposals to the GAČR;
- Slovenian research teams submit their proposals to the ARRS;
- German research teams submit their proposals to the DFG; and
- Swiss research teams submit their proposals to the SNSF.

If the partner institution requires applicants to submit a copy of the OPUS LAP proposals to its respective submission system, a complete English language version of the OPUS LAP proposal in PDF format must be generated following submission of the OPUS LAP proposal to the ZSUN/OSF system and sent to the foreign research team.

PLEASE NOTE: OPUS LAP proposals submitted to the NCN must be the same as the one submitted to the partner institution.
